PROFESSIONAL PROFILE

Software engineer specialized in architecture design and end-to-end development, directing implementation with AI agents. I build software in production with real clients and my own tools, with a focus on applied security.

EXPERIENCE

Cybersur / YaSolutions

Software Engineer (Architecture & Product)

2024 – Present

- Design the architecture and develop MiCartaYa, a digital menu and ordering SaaS for restaurants, in production with over a dozen restaurants (FastAPI, MySQL, Redis, Celery, React).
- Design and develop OrderYa, an ordering system between bakery and shops with an order-prediction engine and profitability module, in production.
- Develop internal management systems (multi-tenant CRM, billing, POS fleet monitoring, reservations) for Cybersur's operations.

SW Demoscopia

Software Developer

Jun 2026 – Present

- Develop real-time monitoring systems with AI processing (transcription, video analysis), built on Node.js, FastAPI, and Celery, with GPU-deployed services.
- Develop PanelOnline, a survey and rewards platform (FastAPI + React): study participation and rewards wallet.

OWN PROJECTS

- Ponme** — AI-powered wardrobe app that generates outfits; includes a smart purchase check and a public, shareable outfit feed. In production, with Stripe billing.
- BeatList** — Spotify playlist analytics and management, officially approved by Spotify, with users in several countries.
- Orbe** — AI-powered financial intelligence panel for my own portfolio.
- Dedica** — Time and expense tracking by project, exposed as an MCP server for AI agents.

ACHIEVEMENTS

Microsoft Bizz Summit 2025 — Hackathon Winner

Madrid

Oct 2025

Developed “NIDO”, a solution using Power Apps, Power Automate, and AI Agents to improve hospitalized children's experience through gamified daily challenges.

EDUCATION

Software Engineering Degree (Cybersecurity)

U-Tad, Madrid

Sep 2022 – Jun 2026

A-Levels (British Curriculum)

Sage College, Jerez de la Frontera

Sep 2020 – Jul 2022

LANGUAGES

Spanish (Native) · English (Highly proficient)
